

STYLIX 2

Four-way Float Top Radiographic Table

Simplicity, Performance and Safety

The Stylix 2 radiographic table's heavy-duty, compact, space-saving design provides exceptional versatility and allows for installations in small x-ray rooms.

While the four-way float top glides effortlessly on its precision bearing system and the convenient location of the foot pedal, which controls all tabletop movements, the Stylix 2 radiographic table is the excellent choice when searching for a durable and reliable radiographic table.

FOUR-WAY FLOAT TOP RADIOGRAPHIC TABLE

TABLETOP MOVEMENT

The large, easy-to-clean tabletop's precision bearing system ensures effortless patient positioning. Combined with the extended Bucky travel, the Stylix 2 enables full coverage the entire length of the table.

MOTION CONTROLS

The conveniently located foot pedal initiates all table movements for safe and accurate exposure positioning.

HIGH QUALITY MATERIALS

The low absorption tabletop material reduces exposure dose rate while the small skin-film distance permits precise, low magnification film studies. Standard side rails support a wide variety of accessories.

MODEL DIVERSITY

Accepts standard non size-sensing and size-sensing grid cabinets or reciprocating buckys, matching trays and grids while still leaving enough room for AEC chambers.

DIGITAL COMPATIBILITY

Adding CR or DR is now easier than ever due to the new Bucky carriage design. Specialized mounting hardware for different digital panels is available upon request.
